

BE THE WOMAN YOU WANT TO BE

Want a figure like a classic film star? Larger breasts? Maybe a butt lift or enhancement? The problem is that surgery is expensive, permanent and can go wrong. Maybe you want to look fantastic when you go out on the town, or with someone special. Maybe you want to try out a larger bust before making a long term commitment. Maybe you don't like the idea of cosmetic surgery. Or maybe, you were simply born in the wrong body.

Big Busts products provide the ultimate in non-surgical shape enhancement. All Big Busts products come in a range of colours to perfectly match your skin and they all include Sensotouch* for the ultimate in touch sensitivity. We have three products in our female product range:

For the best breasts in town, try our

Bustlet

The Bustlet is a flesh-coloured, high necked crop top. It comes in a range of

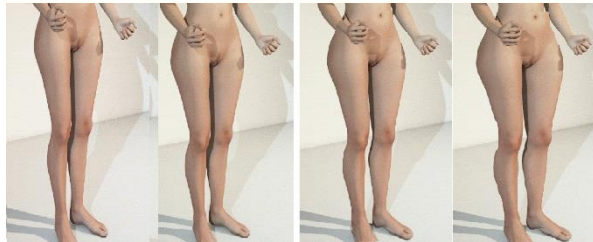

sizes and skin tones. Match the colour correctly, and it's indistinguishable from your own skin. The Bustlet comes with lifelike nipples.

For classic film star curves, use our

Hiplet

The Hiplet does for your hips and bum

what the Bustlet does for your bust.

Or you can combine the two products

Torsolet

The Torsolet is a long-sleeved, leotard which fastens between the legs.

Hiplet and Torsolet include lifelike vulva and insertable vagina. For females, this ensures complete protection against pregnancy and sexually transmitted disease. Males who wish to be females can wear these garments to replicate the female genitalia. In that case, the vagina is located in the groin area, or it can be inserted into the anus, the choice is yours.

All products have

Sensotouch

The skin used in our products is touch sensitive, and that touch is conveyed to your real skin using the inbuilt electronics. Run a hand over the skin of your Bustlet, Hiplet or Torsolet and you'll feel it as though you were touching your own skin. With the adjustable remote control feature, skin can be more or less sensitive, according to personal taste.

Anti-perspirant Gel

All products must be used with our proprietary anti-perspirant gel, to avoid a build-up of perspiration between the product and your skin. Spread the gel over your skin before putting on the garment, then simply pull on the stretchable garment. Wipe away any excess gel before it dries. The gel comes in two grades: Green, for short term usage of just a few hours; or Red, for long term use of up to two weeks. Only use the Red gel if you need long term use as you will not be able to remove the product for at least ten days.

We can also supply

Adjustable Products

All of our product range comes in fixed or adjustable sizes. Our fixed range are easier to fit and cost less. But perhaps you haven't yet decided just what shape you wish to be and want to experiment a little. Or maybe you want to change your shape, depending upon your mood. Want to look the little girl? Then stay slim. Want to get noticed? Then instantly become the curviest girl in town.

With our adjustable product range, you can change size by connecting the included flexible hose to a tap and adding water.

Pregnancy Torsolets

We can supply the best and most realistic pregnancy simulation devices around. Contact us directly for more details.

And for the final touch

Voice-Changer Liquid

For males who want to sound like females, it works in much the same way as helium, but raises the pitch of the voice in a rather more subtle way. Simply hold it in the back of the mouth and then let it slide down the throat. Your voice will immediately change.

Find us on the internet or visit in person

We recommend a personal visit in order to get a great fitting and a superb match of skin colour. We cater for all racial skin tones, and shades of suntan.

If you're unable to visit us, then ask for a colour chart, to enable an exact match with your own skin.

Remember, we're here to help you become the woman you want to be.
